### Description

---

**Blocksil® Graffiti Free is a one pack permanent and not sacrificial coating:**

- Excellent against graffiti attack
- Excellent protection against fly poster
- Removal of graffiti by use of water and detergent
- Repeated removal of graffiti with no reapplication of the product
- Available in Any RAL Colour
- Available in clear

### Suitable for

---

Graffiti Free is suitable for a wide variety of surfaces

- The matt version is particularly effective on the normally difficult to protect substrates such as rough brick or textured finishes.
- Graffiti Free can be used on concrete, render, masonry, porous stone, metals previously painted surfaces.
- We recommend a small trial application be carried out or contact the technical department of Blocksil Graffiti Free who will be pleased to give advice

**Always refer to Safety Data Sheet before use**
